Paidipati Shoban, PMP
Project Management Professional | Infrastructure & Industrial Projects Expert

Professional Profile

With over **16 years of experience in project management, site execution, quantity surveying, and estimation**, I have successfully delivered high-value infrastructure projects, including **steel plants, industrial facilities, high-rise buildings, and sports complexes**. My expertise lies in **strategic project planning, contract management, risk mitigation, and team leadership**, ensuring timely completion while adhering to quality and safety standards.

Currently serving as **Team Leader at Egis India**, I am managing a **portfolio worth INR 2000 Crores** across Odisha, overseeing **design, supervision, and execution** while leading a team of 25 key professionals and 130 site engineers. My leadership ensures project efficiency, financial prudence, and regulatory compliance.

Business & Service Objectives

I specialize in end-to-end **project execution, planning, budgeting, and stakeholder coordination**, ensuring successful project delivery. My core objectives include:

- **Project Management & Execution:** Strategic planning and efficient execution of multi-billion-dollar projects.
- **Financial & Contractual Management:** Budget optimization, financial forecasting, and contract negotiation.
- **Quality & Safety Compliance:** Ensuring adherence to **ISO standards and best industry practices**.
- **Resource Mobilization & Team Leadership:** Building skilled teams, mobilizing resources, and fostering a collaborative work environment.
- **Risk Mitigation & Claim Management:** Identifying project risks, strategizing solutions, and handling claim disputes effectively.
